date:

We confirm that the moulded Presswood particle board pallets used in this consignment by our client or distributed via our reseller:

Reseller:

Manufacturer:

Company Name:

Address:

ZIP code / Name of place:

Country:

**Presswood International B.V.
Lokhorstweg 13a-27
3851SE Ermelo
The Netherlands**

Are manufactured, in the same way as particle board. After drying the wood at 300 °F degrees to a moisture content of only 4%, it is moulded in addition with synthetically binder under a pressure of approximately 1300 Psi and 400 °F degrees. This moulding process cannot be survived by any living plant or pests.

Non wood packaging

Therefore these Presswood Pallets are classified as non-wooden-packaging in the sense of the requirements. It is declared that this shipment does not include any solid wood packing materials.

In view of the special manufacturing process, a combined procedure working with pressure and heat, Presswood Pallets (processed wood) are in conformity to the packaging requirements and international guidelines for phytosanitary measures of the IPPC-ISPM15 standard.

**We confirm that these moulded particleboard pallets are heat processed,
and are considered as sufficiently processed and
free from any plant pests according to FAO-IPPC-ISPM15.**
